

Tim Ereneta, Storyteller

Favorite and Forgotten Fairy Tales

Give your audience something to talk about! Compelling stories, from epic romances to murderous family feuds, have been with us for centuries. Let your audiences see modern life through the lens of ancient tales, where "Once upon a time..." is not so different from right now.

What People are saying about Tim Ereneta

"Droll, funny and original."

~ *The Fresno Bee*

"Tim is a contemporary, hip storyteller... original and authentic. His style is gracefully conversational with an ironic sensibility that gives his work depth and yet doesn't rob it of a comic center. He is understated, wry, and in every way a sophisticated and urban and urbane teller."

~ Gay Ducey, Artistic Director of
the Bay Area Storytelling Festival
